

Senior Backend Engineer (f/m/d) Remote at BSDEX GmbH

Location: Berlin or Stuttgart or 100% remote

You don't live in Berlin? No worries, we live and breathe a remote culture

About

We are Boerse Stuttgart Digital Exchange GmbH – we are building Germany's first regulated trading venue for digital assets. We set high standards in transparency and security and offer a reliable framework for trading. In order to realize this ambitious endeavor, we are looking for new colleagues (f/m/d), who are willing to take on responsibility, who bring in a good portion of pioneering spirit and courage to accompany us on this path.

Mission

Börse Stuttgart Digital Exchange offers retail and institutional clients a trusted and reliable way to trade and store digital assets.

Your Role

- You independently take ownership of architecture, code, products, and tools and continuously build, improve and communicate
- You will work on the codebase behind trading engine, fund management services, real-time market data, FIX engine and data platform. Our trading services are written in Go
- You build beautiful internal and external APIs and make existing ones better

Your Skill set

- Several years of experience in building distributed systems at the intersection of correctness, extreme efficiency, maintainability and resiliency to human and system errors
- You have worked with relational, in-memory and distributed datastores
- You're familiar with the spirit of functional programming
- You have hands-on knowledge of advanced data structures and algorithms and their trade-offs in time, space and engineering effort
- Ideally you have already worked in highly regulated industries/contexts such as the financial industry (i.e. banking, trading, fintech, token economy)
- You actively shape and contribute to a healthy team culture based on mutual trust and support and you are fun to work with 😊
- Experience in Go is a plus. What matters is your ability to build great software
- Experience with Docker and Kubernetes are a plus

Benefits

- Competitive salary
- Stability through corporate back-up and lots of growth opportunities
- 100% flexibility: work from where you want, when you want
- State-of-the-art tech environment
- Learning and Development budget (500 € annually)
- 30 days of vacation

Philipp Klug

Sounds good? Philipp looks forward to your profile (e.g. CV/LinkedIn/GitHub - no need for a cover letter) under jobs@bsdex.de and will get back to you within 72 hours!
