

Test Automation Engineer (f/m/d) Remote at BSDEX GmbH

Location: Berlin or Stuttgart or 100% remote in Germany

You don't live in Berlin? No worries, we live and breathe a remote culture

About

We are Boerse Stuttgart Digital Exchange GmbH – we are building Germany's first regulated trading venue for digital assets. We set high standards in transparency and security and offer a reliable framework for trading. In order to realize this ambitious endeavor, we are looking for new colleagues (f/m/d), who are willing to take on responsibility, who bring in a good portion of pioneering spirit and courage to accompany us on this path.

Mission

Börse Stuttgart Digital Exchange offers retail and institutional clients a trusted and reliable way to trade and store digital assets.

Your Role

- Together with developers implement and improve automated manual test suite
- Prepare and optimize the testing pipeline for delivery pace
- Organize and drive team-wide exploratory and mob-testing initiatives
- Define and maintain testing strategy for existing and upcoming features
- Own and improve software quality KPIs

Your Skill set

- 3+ years of total experience in Quality Assurance role
- Knowledge of Ruby, TypeScript, and React
- Experience with all means of testing, incl. frontend, backend, black box, ...
- Strong troubleshooting and debugging skills
- Ability to work independently
- Nice-to-have: Experience with mobile application testing and React Native and knowledge of trading platforms

Benefits

- Competitive salary
- Stability through corporate back-up and lots of growth opportunities
- 100% flexibility: work from where you want, when you want
- State-of-the-art tech environment
- Learning and Development budget (500 € annually)
- 30 days of vacation

Sounds good? Barbara looks forward to your profile (e.g., CV/LinkedIn/GitHub – no need for a cover letter) under jobs@bsdex.de and will get back to you within 72 hours!
