

Senior Data Engineer (f/m/d) at BSDEX GmbH

Location: Berlin or Stuttgart or Remote

About Boerse Stuttgart Digital Exchange GmbH

We, Boerse Stuttgart Digital Exchange GmbH (BSDEX), are building the first regulated trading venue for digital assets in Germany. Bitcoin, DeFi & Co are changing the banking and exchange business and have become a \$1T+ asset class in a very short time. The underlying blockchain technology is revolutionizing the way assets are handled along the financial value chain. We are now at an inflection point where trading and owning digital assets is becoming mainstream and being embraced by large traditional players such as investment banks, asset managers, family offices, and other major market participants are strongly embracing it institutionally.

We set high standards for transparency and security and provide a reliable and trustworthy framework for trading these new assets. In order to realize this ambitious endeavor, we are looking for new colleagues (f/m/d) who are ready to take on responsibility and who bring a good dose of pioneering spirit and courage.

Your role:

- You own the topics of collection, normalization, and delivery of data
- You maintain and extend or data pipelines and dashboards
- You collaborate with numerous stakeholders on the new features and system design

What you bring:

- 3+ years of total experience in implementing data pipelines with Spark, Flink, or similar
- Solid skills with high-level programming languages, such as Golang, Python, etc.
- Experience with relational databases such as Postgres
- Experience with data storage and querying technologies, such as Parquet format and Presto

- Ability to design, implement, and maintain multiple high-volume data processing pipelines

Good to have:

- Knowledge of AWS, Glue, Redshift, Athena
- Experience with business intelligence and statistical analysis
- Experience with data-driven product marketing
- Knowledge of trading platforms

We offer:

- Participation and ownership in building the missing piece of infrastructure in Europe to trade digital assets
- Access to resources and colleagues of Boerse Stuttgart and knowledge exchange / collaboration with other digitization projects within Boerse Stuttgart, namely Primary Market / Tokenization, Custody, BISON
- Become a shaper of our company culture
- We will have further perks here in the future ...

Sounds good? Please send us your CV/LinkedIn/Github (no need for a cover/motivation letter) to jobs@bsdex.de and we will get back to you in no time!
